Lithium Polymer Batteries.

Electric Vehicles Oceania are pleased to announce the release of a Lithium Phosphate battery designed for the **FourStar Golf Cruiser**. EVO have teamed up with world leader in the manufacturer of Lithium battery products, Heter Battery. Heter has been developing the best Lithium batteries in the world for many years and have earned a reputation for quality and reliability across all their product range.

This Lithium battery is a huge improvement on the current lead acid gel batteries installed in the FourStar Golf Cruiser. These new battery packs enable the life span of your FourStar Golf Cruiser to be extended well beyond the current batteries;

- Up to 10 times longer (approx. 2000 cycles)!
- Much more stable and reliable.
- The battery can be charged at any time, no matter what the level of usage is.
- The battery pack is also much lighter, around 1/3 of the weight of the normal lead acid batteries, this gives you more range out on the course (approx. two rounds of 18 holes of golf, depending on the course, weight carried and usage).
- Comes with a high-quality charger that optimises the charge of the battery, and it can be put on and left on when the FourStar is not in use, no battery damage, timer switch or worries!
- Contained in a strong metal case and has solid quality connections to ensure that the pack will withstand the normal operating conditions found out on the golf course.

EVO is taking orders for these great battery packs today and we have them made direct from the factory, ready for installation and use. Approximate delivery time is 4-6 weeks.

The cost of these battery packs is \$1350.00 incl. GST and includes the pack, charger, all wiring and installation at our Northmead warehouse. If purchasing a new cruiser, we can include the lithium pack for only \$1000.00 extra (\$4485.00 total price for the FourStar Cruiser including lithium pack).

To order one of these Lithium batteries for your FourStar Golf Cruiser, give us a call or email today, (02) 8897 5374 or info@lordco.net.au. If you would like to see the pack for yourself, we have one at our Northmead warehouse installed in a FourStar Golf Cruiser, ready for demonstration.

Used FourStar Golf Cruiser Specials.

Did you know we have second hand/used FourStar Golf Cruisers in stock and for sale? We offer great prices on FourStar Golf Cruisers that have been sold back to us or from trade ins. These vehicles get a comprehensive inspection, repairs, servicing and renewal of parts as required.

Our feature vehicle for sale is this custom painted FourStar Golf Cruiser in gold and black. This cruiser has had a complete tear down and re-build. Every nut and bolt has been removed and re-assembled. The heavy-duty steel frame has had a complete re-spray with matte black rust preventing epoxy enamel paint to ensure this cruiser will last for many years to come. Extensively checked and assessed in house, almost every component has been replaced with brand new stock items, including:

- Curtis controller
- complete wiring and switches
- new batteries
- wheel bearings
- drive chain
- sprocket
- motor and gearbox
- front and rear suspension
- tow ball
- basket
- score card holder
- sand bucket holder
- smart charger
- foot plates
- aluminium mud guards
- dirt guard
- throttle
- comfy sheep skin seat cover

All the battery compartment panels have had a bright new finish of metallic gold applied and the body has been given custom gold stripes applied. The wheels also have had the same matte black finish applied as the frame. One of the best FourStar Golf Cruisers ever seen, it will turn heads on the course. This cruiser represents the best value available, as it is just like a brand-new cruiser straight out of the box. It will come with a complete 12 months warranty for peace of mind. **This cruiser can be yours for just \$2995.00 ride away today.**

Are you thinking of upgrading to a brand new FourStar Golf cruiser or a IM4 i-Motion Caddies Cruiser, or would like to sell your current cruiser? We can offer you the best price and value. Just get in contact with us with details of your cruiser and we will help you out.

FourStar Golf Cruiser Servicing and Restorations.

At Electric Vehicles Oceania, we can offer the best servicing, repairs and restorations for your cruiser. The everyday service that we offer on your cruiser entails a full inspection, adjustments, lubrication, check and battery condition report. This service is just \$160.00 and we recommend it is performed at least every 12 months.

We now offer a full restoration service for your cruiser. During this restoration, we will completely re-build your cruiser from the ground up. Included in this is the re-spray of the frame of the cruiser, applying durable epoxy enamel rust guard to ensure the cruiser will be in great condition for years to come. Replacement of any nut and bolt is included too. During the re-build, if we find any component that requires replacement, we will replace after consulting with you, and apply a **20% discount** to these components. In addition to the services offered, we can also respray any parts of the cruiser in any colour of your preference. This service will restore your cruiser to a like new condition, enabling many more years of happy golf. Contact us today and we can work out the best price for this comprehensive service.

Book your service or restoration with us by calling (02) 8897 5374 or email info@lorco.net.au

IM4 i-Motion Caddies Golf Cruiser

As you can see from the unique modern design, the IM4 has broken away from the tradition and been designed as the "future" of single seater golf rides. The IM4 will easily complete 36 holes on a full charge and its superior 4-wheel build quality allows for outstanding performance for both single and fleet buyers alike. With the IM4's quick release seat system enabling the buggy to be fully portable and transportable by car, adding to its appeal.

Golf is a rewarding and a challenging sport that can be played by people of all ages and all abilities. However, whilst those in their youth may find going around an 18-hole course a "walk in the park" the same can't

always be said for the players over the age of 50, many of whom suffer from back problems, arthritis and other illnesses resulting in them experiencing pain when bending and walking. Now, thanks to the IM4 Electric single seater golf buggy you can enjoy a relaxing game of golf without the pain!

[Have a look at this video of the IM4 in action \(click here\).](#)

Come down to our Northmead warehouse and check out the IM4 for yourself. We will give you a test ride and can answer any questions you may have on this fantastic machine. See just how great this cruiser is! Call or email us today.

New Distributors!

**Electric
Personal
Vehicles**

Electric Vehicles Oceania are happy to report we have signed up a new distributor in Queensland.

Neil and Katrina are the owners of Electric Personal Vehicles (EPV). EPV is based on the Gold Coast and are proud to represent EVO in the Sunshine State! EPV is the port of call for all our products and they would be more than happy to help you out with all your requirements in sales and service of vehicles and spare parts.

You can find their website and contact info here: <http://electricpv.com.au/>

If you need to find a dealer or distributor near you, have a look at our distributors page [\(click here\)](#).
