Latest IM4 includes as standard:

- Quick release golf bag holder, for easy and fast removal/refitting of bag and holder when loading/unloading the IM4 into a car.
- A USB port on the instrument console, for charging a mobile phone and/or running a golf GPS for course maps, terrain, distance etc.
- Steering column adjustable angle settings for extra comfort to suit person size.
- Two-speed switch relocated to a more easily accessible position on instrument panel near the throttle.
- Umbrella holder and bracket relocated from in front of the rider to behind the seat for better vision and angle/position of the umbrella.
 - Quick release hasp and clasp for easy access to the battery and motor compartment, free-wheel connect/disconnect lever, and for ease of cleaning and maintenance.
 - Improved golf bag holder base with "bucket" to ensure golf bag doesn't slip or move around.
